Zaseves: 1000 idee in tavola

Nata nel 1971, ZASEVES ha rapidamente saputo consolidare un'ottima immagine nel settore degli articoli ed accessori per la casa. Le ragioni di tale successo si possono ricercare da una parte nell'elevato controllo qualità del prodotto e dall'altra ad una ricerca di design sempre attuale, tesa a sposare la bellezza della forma alla funzionalità. Il risultato sono utensili ed accessori per la cucina duraturi nel tempo ed impeccabili nel loro impiego quotidiano.

Zaseves, inoltre, ha negli ultimi anni rafforzato il suo credo in una produzione totalmente italiana dei propri prodotti, ponendosi come una delle poche realtà locali che può forgiare la sua produzione del titolo di Made in Italy.

ZASEVES

Zaseves: a 1000 ideas for table

ZASEVES, a company born in 1971, quickly consolidated an excellent image in the household goods and accessories sector. The reasons for this success can be partly found in the high control level of the product and partly in the search for always up-to-date designs aimed at moving beauty from form to functionality. The result is long-lasting kitchenware and accessories, impeccable in their daily use.

ZASEVES has strengthened its belief in a totally Italian- based production, being one of the few local firms that can present itself as Made in Italy.
